

INVACARE®
G-SERIES
BED

The Invacare® G-Series Bed is certified to the IEC 60601-2-52 standard for safety and essential performance of medical beds. With Invacare's G-Series Bed you will have the peace of mind that your bed frame, mattress and rails have passed stringent tests to help ensure the highest standard for patient safety in the homecare environment. Invacare's G-Series Bed is designed to deliver new and innovative features that further meet patients' needs.

Invacare beds, mattresses and rails, excluding therapeutic support surfaces and bariatric beds, when used as a system and sold new and unused after August 1, 2007, meet the FDA guidance document on "Hospital Bed System Dimensional and Assessment Guidance to Reduce Entrapment." Visit www.invacare.com/bedsafety for additional safety and entrapment information.

Features

Newly Designed Hand Pendant - The pendant is ergonomically designed and fluid proof, with an extended heavy duty strain relief for increased flexibility. Connects on either side of the bed for patient's ease of use.

Supportive Sleep Surface - The slat deck is designed to provide a comfortable sleep surface for patients, reduces wear and tear on the mattress and is simple to clean, allowing for improved infection control.

Interchangeable Bed Ends - Extra extensive travel range. Easy to clean and impact-resistant.

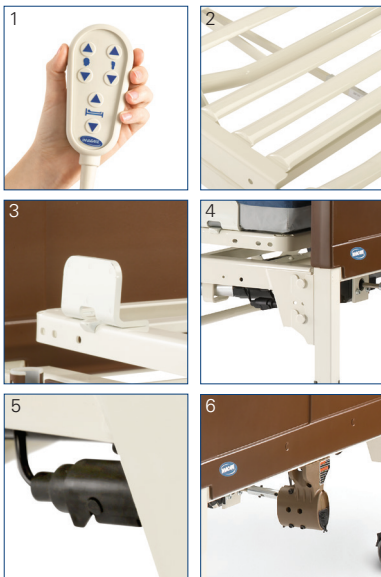

Secure Mattress Keepers - Securely position the mattress to prevent sliding.

Ergonomic Bed Sections - Ergonomically designed head and foot sections with elongated head section for increased patient comfort.

IP66 Rating - Water-resistant connections designed to prevent fluid ingress.

Crank Through Electronics - Designed to allow all motors to be operated manually in the event of a power outage.

HCPCS Code: E0265

1. Newly designed hand pendant
2. Supportive sleep surface
3. Secure mattress keepers
4. Advanced electronic features
5. IP66 rating
6. Crank through electronics
